

NovaTech Data Verification Log

Student Name: **Raghad Almutairi**

Date: **09-09-2026**

Instructions

Query each pre-indexed knowledge base using Quick Chat. For each question, record the expected answer (from the data dictionary), Q's actual response, and whether they match. Minimum 6 entries (2 per data knowledge base).

Verification Log

#	Knowledge Base	Question Asked	Expected Answer	Q's Actual Answer	Match?	Notes
1	NovaTech CRM Deals	How many total deals are in the CRM data, and how many are Won vs. Lost?	499 total - 315 Won, 184 Lost	499 total – Won: 315 (63.1%), Lost: 184 (36.9%)	Yes	Q also volunteered win rate (63%) and percentage breakdowns not asked for nice bonus context, all figures reconcile exactly with the data dictionary.
2	NovaTech CRM Deals	What are the valid loss reasons for lost deals?	Budget Constraints, Competitor Won, No Decision Made, Poor Product Fit, Timing Not Right	5 reasons found: Poor Product Fit (43), No Decision Made (43), Competitor Won (34), Timing Not Right (33), Budget Constraints (31)	Yes	All 5 categories match the dictionary exactly. Q added counts, which is useful bonus detail counts sum to 184, matching total Lost deals from row 1.
3	NovaTech Marketing Campaigns	How many marketing leads are there, and what's the	2,240 leads; response rate 27.2% (609 of 2,240)	2,240 total leads, 609 responses, response rate 27.19%	Yes	Response rate matches (27.19% $\approx$ 27.2%, rounding only). Response

		overall campaign response rate?				count (609) matches dictionary exactly.
4	NovaTech Marketing Campaigns	Which six campaigns are currently running, and what channels are used?	Campaigns - Digital Retarget, Enterprise Expansion, NovaEdge Awareness, NovaPulse Launch, Q3 Growth Sprint, Year-End Accelerator; Channels - Direct Mail, Email, Organic Search, Paid Social, Partner Referral	6 campaigns confirmed (same names); Q reported each campaign uses all 5 channels rather than listing channels once overall	Yes	All 6 campaign names and all 5 channel names match exactly. Q's framing ("each campaign uses all 5 channels") is a slightly different interpretation than the dictionary's phrasing but is factually consistent each campaign name appears across multiple channel rows in the raw data, so this is correct, not an error.
5	NovaTech Support Tickets	How many support tickets are there, and how many are unresolved (no resolved date)?	3,000 tickets total; 59 unresolved (2.0%)	3,000 total tickets, 59 unresolved (~2%)	Yes	Exact match on both figures.
6	NovaTech Support Tickets	What is the distribution of ticket priority levels?	low = 1,500, medium = 1,050, high = 400, critical = 50	Low: 1,500 (50.0%), Medium: 1,050 (35.0%), High: 400 (13.3%), Critical: 50 (1.7%)	Yes	Exact match on all four counts. Q auto-generated a pie chart breakdown, which is a good sign for the natural-language querying capability Sarah specifically asked for.

Cross-Check

Pick one fact from above and confirm it independently in the QuickSight dataset preview.

Row 5 (support tickets)

5	NovaTech Support Tickets	How many support tickets are there, and how many are unresolved (no resolved date)?	3,000 tickets total; 59 unresolved (2.0%)	3,000 total tickets, 59 unresolved (~2%)	Yes	Exact match on both figures.
---	--------------------------	---	---	--	-----	------------------------------

- **Fact verified:** Total support ticket count and number of unresolved tickets (tickets with no resolved date)
- **Chat said:** 3,000 total tickets; 59 unresolved (no resolved date)
- **QuickSight shows:** 3,000 rows imported (100% success) confirmed on the dataset Summary page
- **Consistent?** Yes

History

How many total deals are in the CRM data, and how many are Won vs. Lost?

MY ASSISTANT

Completed 1 step

Here's a summary of your CRM deals data:

- **Total Deals:** 499
- **Won:** 315 (63.1%)
- **Lost:** 184 (36.9%)

Your win rate is approximately **63%**, meaning nearly two-thirds of all deals in the dataset were closed successfully.

Smart

What are the valid loss reasons for lost deals?

MY ASSISTANT

Completed 1 step

There are **5 distinct loss reasons** for lost deals in the CRM data : novatech_crm_deal...

Loss Reasons For Lost Deals		⬇️ ⬇️ ⬇️ ⬆️
Loss Reason	Count	
Poor Product Fit	43	
No Decision Made	43	
Competitor Won	34	
Timing Not Right	33	
Budget Constraints	31	
View more		

The top two reasons — **Poor Product Fit** and **No Decision Made** — are tied at 43 deals each, accounting for nearly half of all losses. **Budget Constraints** is the least common reason at 31 deals. novatech_crm_deal...

Would you like to explore the loss reasons further?

Smart

How many marketing leads are there, and what's the overall campaign response rate?

MY ASSISTANT

Completed 1 step

Here's a summary of your marketing leads and campaign performance : novatech_marketin...

- **Total Marketing Leads:** 2,240
- **Total Responses:** 609
- **Overall Campaign Response Rate:** 27.19%

So roughly 1 in 4 leads responded to campaigns.

Would you like to explore this further?

Smart

Which six campaigns are currently running, and what channels are used?

MY ASSISTANT

Completed 1 step

There are **6 campaigns** currently running, and each one uses all **5 channels**. Here's the breakdown : novatech_marketin...

Campaigns

Table	
Campaign	Channels
Digital Retarget	Direct Mail, Email, Organic Search, Paid Social, Partner Referral
Enterprise Expansion	Direct Mail, Email, Organic Search, Paid Social, Partner Referral
NovaEdge Awareness	Direct Mail, Email, Organic Search, Paid Social, Partner Referral
NovaPulse Launch	Direct Mail, Email, Organic Search, Paid Social, Partner Referral
Q3 Growth Sprint	Direct Mail, Email, Organic Search, Paid Social, Partner Referral
Year-End Accelerator	Direct Mail, Email, Organic Search, Paid Social, Partner Referral
View more	

Every campaign is leveraging the full suite of 5 channels: **Direct Mail, Email, Organic Search, Paid Social, and Partner Referral**.

Smart

How many support tickets are there, and how many are unresolved (no resolved date)?

 MY ASSISTANT

Completed 1 step 

Here's a summary of your support tickets :  novatech_support_...

- **Total tickets:** 3,000
- **Unresolved tickets** (no resolved date): **59**

So about 2% of all tickets remain unresolved.

Smart 

What is the distribution of ticket priority levels?

MY ACCOUNT

Completed 1 step

Here's the distribution of ticket priority levels across all 3,000 tickets: novatech_support_...

Ticket Priority Distribution

Priority	Tickets	% of Total
Low	1,500	50.0%
Medium	1,050	35.0%
High	400	13.3%
Critical	50	1.7%

View more

- Key takeaways:**
- **Low-priority** tickets make up half of all volume
 - **Medium-priority** tickets account for about a third
 - **High and Critical** tickets together represent only ~15% of total tickets, with critical tickets being less than 2%

Would you like to dive deeper into any specific priority level?

What would you like to explore next?

Unresolved tickets by priority

Resolution time by priority

Priority by region or product area
